Blending modern luxury with a deep connection to the local culture and heritage.

Embracing the Duality

Honoring the culture of the destination while adding a modern soul to the offering.

Brand Strategy

Brand Manifesto

A Story of Two Towers. And Every Rhythm of Life.

On Reem Island, where the city's future is shaped by ideas and ambition, and nature offers space to pause and reflect, **two towers rise - not as opposites, but as complements.**

The Twin Towers of Rotana Residences are a celebration of duality.

Of life lived in balance, and time treasured.

Of energy and ease, curiosity and calm.

Between motion and meaning

On one side, the pulse of a thriving university - alive with youth, learning, and forward momentum.

On the other, a park that breathes - green, open, restorative. Here, life flows naturally between these worlds.

Mornings begin with movement and possibility.

Ideas spark over coffee, routines are energized by purpose, and the city feels close and alive.

As the day unfolds, the rhythm softens.

Evenings drift toward tree-lined paths, open skies, and moments of quiet reflection.

This is not a choice between lifestyles.

It is the freedom to live both.

For the young. And the young at heart.

Rotana Residences are designed for those who are building their futures and for those who have learned how to enjoy the present.

For residents driven by ambition, connection, and discovery. And for those who value comfort, refinement, and intentional living.

Every residence is crafted to support life as it evolves. Spaces that welcome energy during the day and offer calm by night.

Design that feels contemporary yet timeless.

From social moments to private retreat, the towers adapt effortlessly - just like the people who live within them.

The Rotana Residences do not define how you should live - they simply give you the space to live fully.

Rotana Residences, Reem Island

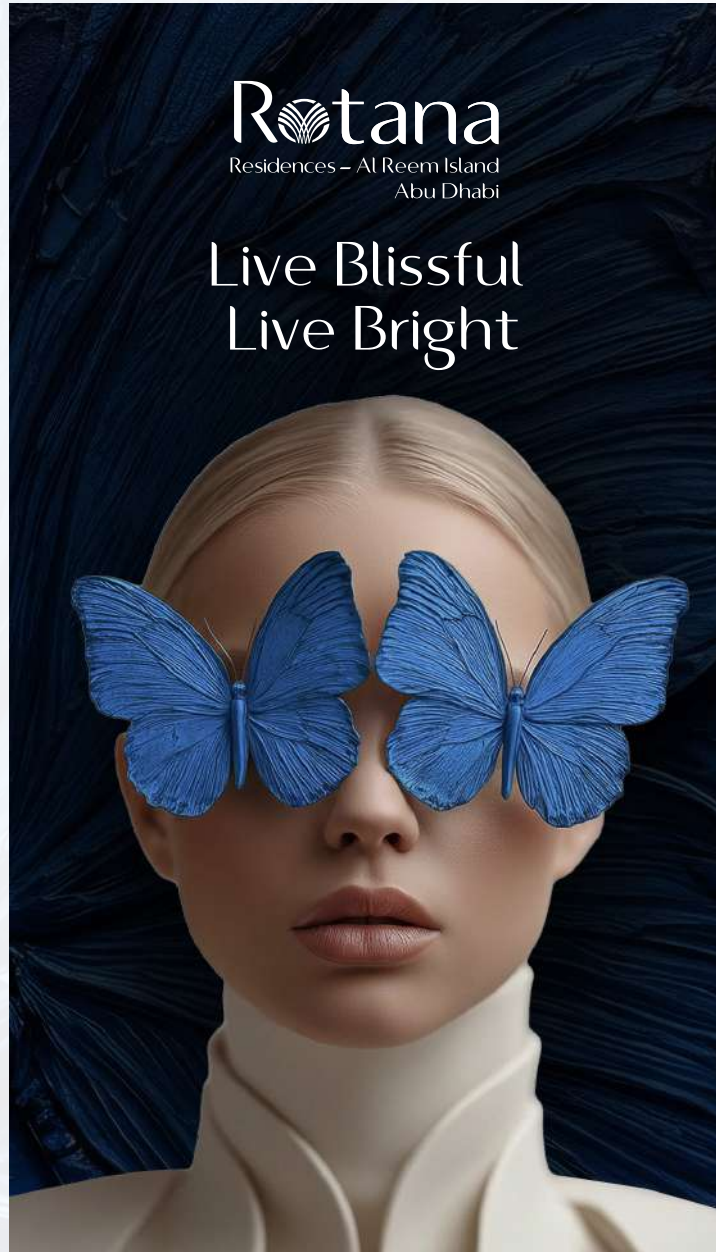

Two towers.

Two rhythms.

One way of life.

Brandmark Elements

The Rotana Residences English brandmark is composed of two distinct yet essential elements that must always appear together in approved applications.

Element 1: The Rotana master brandmark in English, used strictly in accordance with official Rotana brand guidelines, without alteration in form, proportion, or styling.

Element 2: The project descriptor, which includes the word “Residences” followed by the project location (e.g., Al Reem Island). This descriptor provides contextual clarity while maintaining alignment with the overall brand architecture. Both elements work in tandem to ensure brand consistency while clearly identifying the specific development.

Each element and their relationship has been carefully designed. This relationship is fixed and must never be altered. The brandmark should be used on all Rotana Residences collaterals including business, consumer and corporate advertising, marketing communications, customer communications, and employee communications material.

The brandmark exists as a set of master artworks that can be found within the Policies & Procedures library in MyRotana.

Usage Guidelines for Tower Specific Logos

Usage Guidelines

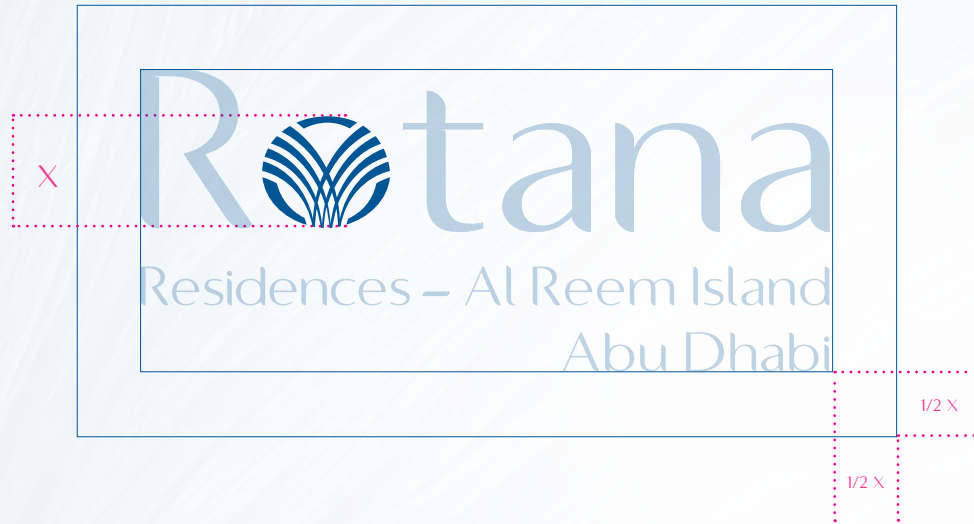

The brandmarks developed for Rotana Residences North Tower and Rotana Residences South Tower are designated for use across all tower-specific applications.

These include, but are not limited to, stationery, signage, environmental and exterior façade branding, marketing collateral, and official documentation such as Sales and Purchase Agreements related to the respective towers.

When communications or campaigns focus on an individual tower, the corresponding tower logo should be used consistently across all relevant marketing and communication materials to ensure clarity, distinction, and brand alignment.

Graphic Element & Textures

Brand Graphic Element

The Butterfly

The Butterfly as a Brand Motif

The butterfly is a meaningful symbol for Rotana Residences Al Reem Island, reflecting both the spirit of the development and the presence of its dual towers. Its natural balance and symmetry mirror the relationship between the North and South Towers.

Its effortless movement through open spaces symbolizes freedom, openness, and a sense of possibility, while the natural symmetry of its wings reflects harmony and duality working as one.

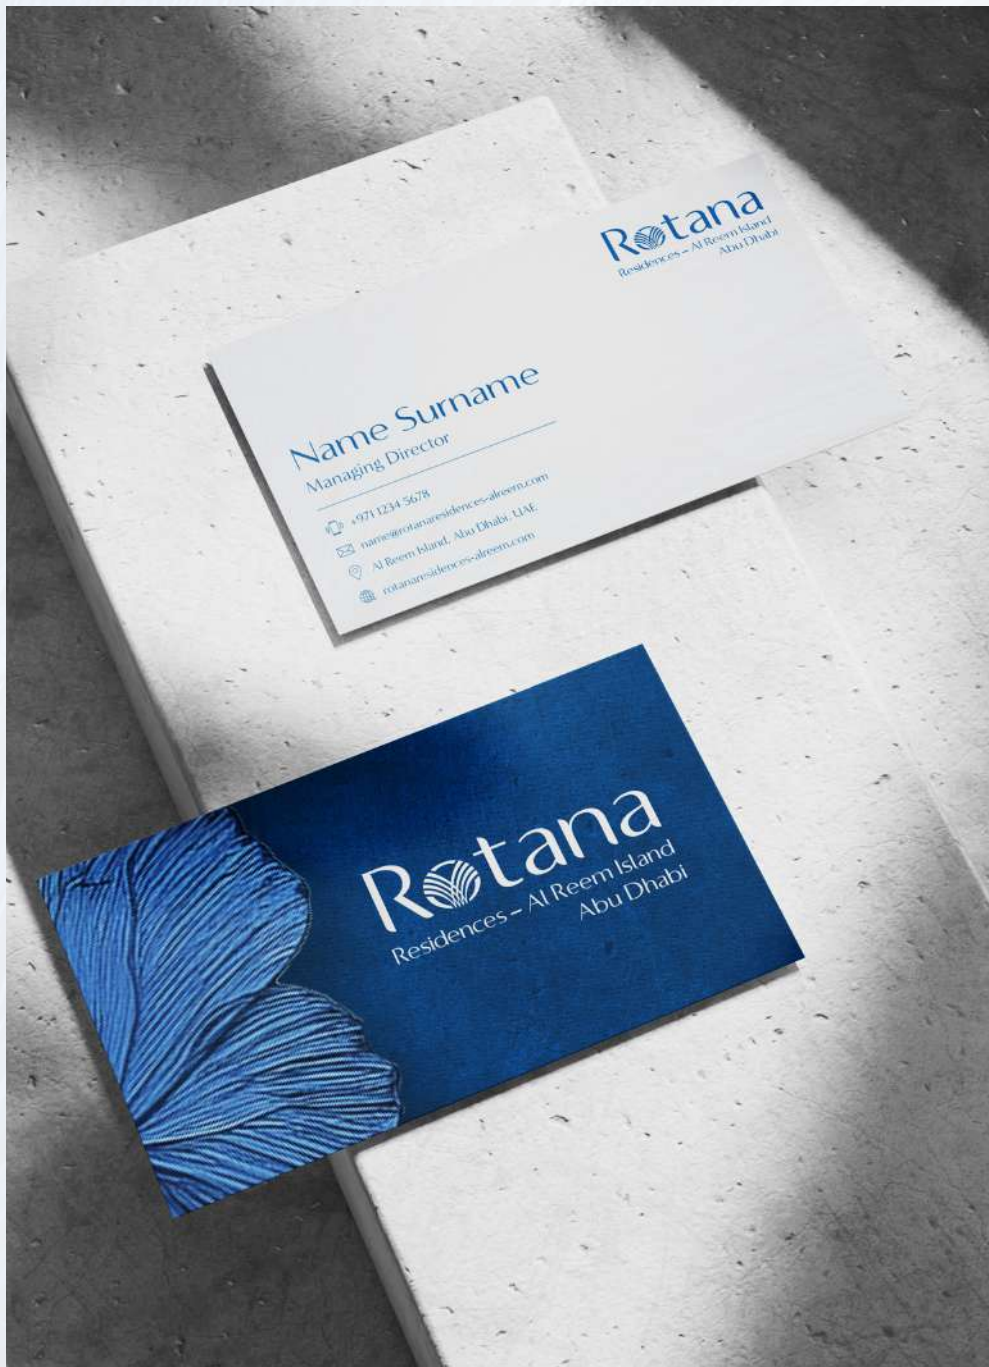

The Butterfly has a gentle uplifting energy that feels serene and balanced and also represent growth, vibrancy and life.
