Portfolio: Government Infrastructure, Public Buildings, Residential & Commercial Complexes

Our Services

Integrated Solutions from Concept to Completion

Engineering Management & Consultancy

Expert oversight from project conception to delivery. We ensure projects are completed on time, within budget, and to the highest quality standards through meticulous planning and coordination.

Construction

Executing building projects with precision and quality craftsmanship. Our expertise spans critical government infrastructure, public buildings, and private residential and commercial developments.

MEP Solutions

Delivering integrated, efficient, and sustainable MEP solutions that are vital to the functionality, safety, and comfort of any modern building.

Our Competitive Advantages

The Local Edge for Seamless Project Execution

Unmatched Local Expertise

Deep-rooted knowledge of Abu Dhabi's regulations, environment, and market dynamics enables us to navigate complex projects with confidence and efficiency.

Strong Strategic Relationships

Long-standing, trusted relationships with key government entities and major real estate developers in Abu Dhabi, ensuring smoother approvals and seamless collaborations.

Professionalism & Reputation

A track record built on reliability, transparency, and delivering on our promises, making us the contractor of choice for discerning clients.

Why Choose Us?

One Partner, End-to-End Capabilities

Choosing Extension means accessing more than just a construction firm. As part of a larger conglomerate, we offer unparalleled **Group Synergy**.

Comprehensive Service Offering

We provide seamless integration with our sister companies in real estate development and transportation. This allows us to offer clients a more cohesive, efficient, and streamlined project experience.

Reduced Interface Risks

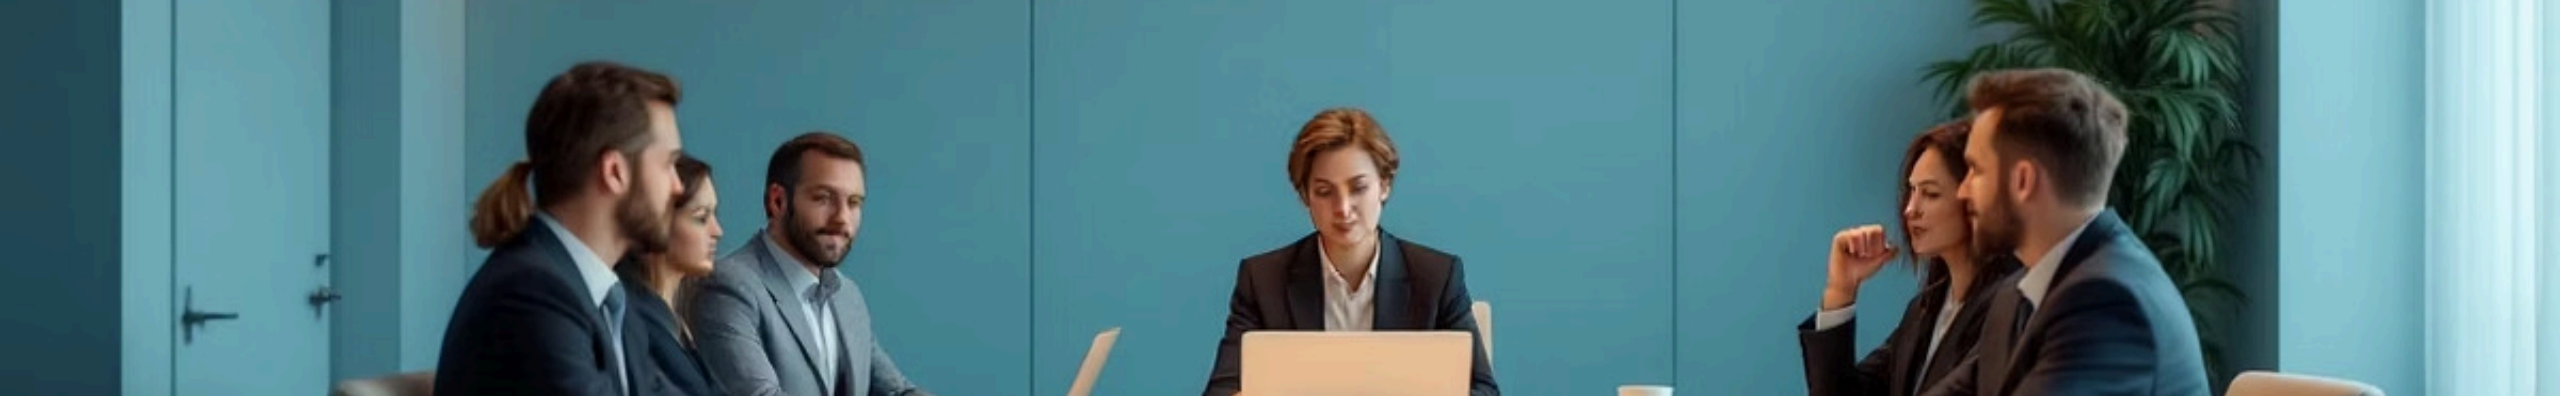

Our integrated approach minimizes coordination challenges and eliminates gaps between different service providers, ensuring smoother project delivery.

Added Value

Clients benefit from cost efficiencies, faster delivery times, and enhanced quality through our consolidated expertise and resources.

Governance & Transparency

Built on Integrity: Governance Meets Global Standards

Our operations are founded on a robust framework of corporate governance that adheres strictly to both UAE regulations and international best practices. We believe transparency is the foundation of trust and successful partnerships.

Ethical Compliance

Strict adherence to UAE laws and international anti-corruption standards, ensuring all operations meet the highest ethical standards.

Financial Integrity

Clear, audited financial reporting and transparent bidding processes that build confidence with clients and stakeholders.

Structured Accountability

Well-defined organizational structure with clear lines of responsibility and decision-making authority.

Stakeholder Engagement

Open and honest communication with clients, partners, and authorities throughout every project phase.

HSE & Sustainability

Our Commitment: Zero Harm. Sustainable Future.

The well-being of our people and the protection of our environment are non-negotiable priorities. We implement a certified Integrated Management System (IMS) to ensure the highest standards of Health, Safety, and Environmental (HSE) performance on every project.

Health & Safety

A "Zero Incident" culture, with continuous training and advanced protocols to protect our workforce and the public on every project site.

Sustainable Practices

Contributing to Abu Dhabi's long-term vision by designing and building with sustainability and resilience in mind for future generations.

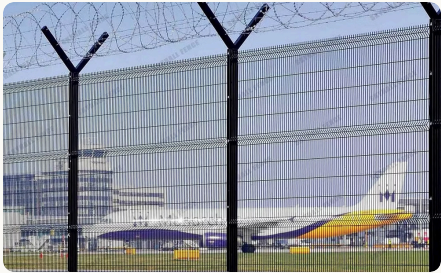

Environmental Stewardship

Minimizing our ecological footprint through waste management, resource efficiency, and the use of sustainable materials wherever possible.

Glimpse of Our Distinguished Projects

Extension Contracting has successfully delivered a diverse portfolio of projects across Abu Dhabi and Al Ain, demonstrating excellence in residential, commercial, and public safety construction. We have had the privilege of serving prestigious clients including Abu Dhabi Police, esteemed royal family members, and prominent private owners.

High-Security Perimeter Fencing

Location: Abu Dhabi Ports & Airports

Client: Abu Dhabi Police General HQ

Description: Construction and successful completion of security fences for ports and airports, ensuring compliance with international safety and security standards.

Emergency & Safety Department

Description: Full-scale construction and fit-out services for commercial and office buildings, including complete MEP installations, executed to the highest quality and industry standards.

Large-Scale Residential Development

Location: Abu Dhabi

Client: Distinguished Private Clients

Description: Construction of over 200 luxury villas, complemented by ongoing facility management and maintenance services to ensure quality and operational excellence.

Our Strategic Vision

Our vision is to form strategic partnerships with Abu Dhabi's leading real estate development companies and government entities. We aim to collaborate on executing infrastructure and building construction projects within their portfolios, both inside and outside of Abu Dhabi.

Strategic Partnerships

Collaborate with leading developers and government entities leveraging our local market expertise and extensive client relationships.

International Collaboration

Partner with leading international construction firms to strengthen our competitive position and facilitate expertise exchange.

Market Expansion

Capitalize on significant investment opportunities within Abu Dhabi's booming real estate sector for mutual sustainable success.

We are actively seeking collaboration opportunities on specialized projects that align with our expertise and vision for sustainable growth in the region.

Our Portfolio & Call to Action

A Legacy of Landmarks

Ready to bring your next project to life? Partner with Extension Contracting for exceptional results that exceed expectations.

Let's Build Your Vision Together
