A LIVING MASTERPIECE

Designed by the visionary Zaha Hadid Architects, Oystra redefines waterfront living with flowing, organic forms that blur the boundaries between land, sea, and sky. Here, the ocean isn't just a backdrop — it's part of the experience.

Curved structures mirror the movement of water, materials reflect the textures of the shore, and every space is designed to feel fluid, open, and alive. Oystra moves with you, breathes with you, evolves with you. Luxury here isn't loud — it's effortless, seamlessly blending nature and design.

AL MARJAN ISLAND

Al Marjan Island stretches into the Arabian Gulf like a quiet invitation, four coral-shaped islands made for those who move to the rhythm of the coast. With its mix of boutique resorts, soft beaches, and thoughtfully designed residences, it's one of the UAE's most sought-after waterfront destinations.

The landscape is soon to evolve with the arrival of Wynn Al Marjan Island. Opening in 2027, this landmark resort will introduce the region's first integrated gaming experience, revitalizing the shoreline while staying true to the island's calm, natural appeal.
